

HELPING ELEVATE PATIENT SAFETY OUTCOMES AND CLINICAL PERFORMANCE

FOCUSED ON SERVING THE
PERIOPERATIVE ENVIRONMENT

PARTNERING TO HELP REALIZE YOUR STRATEGIC VISION

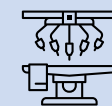

Government facilities face the challenge of trying to deliver safe patient care while efficiently managing staffing, capital, and other essential resources. **STERIS recognizes the need for strategic industry partnerships and provides a robust healthcare product portfolio to achieve these goals.** We offer a wide range of healthcare offerings tailored to meet your specific needs and leading industry expertise to provide support that covers ideation to implementation – and everything in between.

Through strategic growth and acquisitions, STERIS serves as an end-to-end provider that offers Customers a unique mix of innovative capital equipment solutions, a broad consumable portfolio, support services, and education that support the perioperative environment.

WORKING TOGETHER TO CREATE AN OPTIMAL **OPERATING ROOM** ENVIRONMENT FOR PATIENTS & STAFF

When it comes to surgery, patients and their families count on the expertise of professionals, who count on STERIS. In the Operating Room, **we partner to help Customers deliver unparalleled care** with advanced technologies and end-to-end support that allows you to focus on **what matters most: patient care.**

SUPPORTING A STRONGER DEPARTMENT THROUGH EDUCATION

STERIS is dedicated to helping you keep pace with quality, compliance, and safety requirements through continuous education and training. Our deep industry knowledge and expertise helps keep you on the path toward clinical and operational excellence. Our education support includes:

On-site assessments, mock audits, and consulting that provide strategic recommendations for operations and workflow.

Continuing education and modules to improve processes and quality.

Training programs for new hires, staff competencies and certification preparedness.

Current standards and best practices to ensure department managers and technicians have the most up-to-date information.

STERIS has a long history of partnering with small businesses and service disabled veteran-owned small businesses. Through STERIS’s alliance with small businesses, **we collaborate and share lessons learned that may help these businesses** position themselves for opportunities offered by the government sector programs. We work closely with our partners to ensure they deliver exemplary performance on government contracts using products from our portfolio.
