

Lose the rust.  
Keep your table.

## Table Base Revive

**A difference you can see from a name you can trust**

If you can see rust on your surgical table base, so can accrediting agencies. Your STERIS Field Service Representative can restore your current table base to near-new condition, removing the damaging effects of fluids and harsh chemical cleaners.

# Lose the rust. Keep your table.

## Ensure compliance with accreditation guidelines

- Eleven-step process removes rust and restores your surgical table base, including
  - Sanding and cleaning the table base
  - Transforming rust into a non-rusting surface
  - Applying multiple layers of durable finishing paint
- A cost-effective alternative to table replacement
- Performed by your trusted STERIS Field Service Representative

## Turn the tables on rust
