Part II Organizational Action Attach additional statements if needed. See back of form for additional questions.

14 Describe the organizational action and, if applicable, the date of the action or the date against which shareholders' ownership is measured for the action ▶ **On November 2, 2015, Solar US New Merger Sub Inc merged with and into STERIS Corporation in a taxable merger. At the effective time of the merger and without any action on the part of the shareholders, each STERIS Corporation share then issued and outstanding was cancelled and automatically converted into and became the right to receive one ordinary share of STERIS plc.**

15 Describe the quantitative effect of the organizational action on the basis of the security in the hands of a U.S. taxpayer as an adjustment per share or as a percentage of old basis ▶ **Each former owner of STERIS Corporation will take a fair market value basis in the STERIS plc stock received in the transaction, subject to the Section 304 discussion below in item 19.**

16 Describe the calculation of the change in basis and the data that supports the calculation, such as the market values of securities and the valuation dates ▶ **The fair market value of one STERIS Plc ordinary share was determined to be \$74.36 as of November 2, 2015. This fair market value is based on the average of the low and high price at which STERIS Corporation common shares traded on the New York Stock Exchange during normal trading hours on November 2, 2015.**

Fair market value generally is the price at which property would change hands between a willing buyer and a willing seller, neither being under any compulsion to buy or to sell and both having reasonable knowledge of the facts. U.S. federal income tax law does not specifically prescribe how you should determine the fair market value of the STERIS plc ordinary shares. There are several possible methods for determining the fair market value of STERIS plc ordinary shares. One possible approach is described above. Other approaches may also be possible. You are not bound by the approach described above and may, in consultation with your tax advisor, use another approach. You should consult your tax advisor to determine what measure of fair market value is appropriate.
