

## Shoulder Table Accessory Cart

This dual purpose storage cart was specifically engineered to hold the Shoulder Table or the Shoulder Chair and related accessories, and has a weighted base that makes this cart tip-resistant.

### Description

**Equipment Number: BF461**

This dual purpose storage cart was specifically engineered to hold the Shoulder Table or the Shoulder Chair and related accessories, and has a weighted base that makes this cart tip-resistant. The ergonomic design helps ensure that devices are always at a convenient height for the user to reduce potential back strain. The optional accessory hooks allow quick and easy organization and storage of components and posturing accessories, and the deep bin in the base provides additional valuable storage space. (Accessories not included.)
