S40® Sterilant Concentrate

S40® Sterilant Concentrate is a single use peracetic acid chemistry used in STERIS automated Liquid Chemical Sterilant Processing Systems.

Description

S40® Sterilant Concentrate is for use in STERIS automated Liquid Chemical Sterilant Processing Systems

S40® Sterilant Concentrate is a peracetic acid chemistry packaged in single-use cups.

The sterilant can be used:

- in the SYSTEM 1E® Processor for cleaned, immersible, and reusable heat-sensitive, critical and semi-critical medical devices or
- in the SYSTEM 1® endo Processor for cleaned, immersible and reusable heat-sensitive, semi-critical medical devices and their accessories

There are no special ventilation requirements, and the use dilution is discharged safely down the drain.
