

HexaLux[®] Exam Light

Experience the clear difference in coolness, comfort and natural color rendition inherent in pure, white LED light in your exam room. One light. Many possibilities.

- Delivers up to 65,000 lux of pure, white LED light
- Includes five light intensity levels and configurations that mount to the ceiling, wall or mobile unit
- Central handle can be removed and sterilized allowing for full sterile control of all light features

Description

The HexaLux Exam Light is a powerful, next-generation LED exam light designed to be used in a multitude of rooms including the exam room, birthing suite, or intensive care unit.

Lasting LED power

The HexaLux Exam Light has a high R9 value — 97 — and 65,000 Lux designed to last over 50,000 hours. With its 16 LEDs, the HexaLux Light provides a competitive, affordable option for exam room lighting needs.

Design versatility

The HexaLux Exam Light's design includes five light intensity levels and configurations that mount to the ceiling, wall, rail or mobile unit, while the modular design and partial assembly of the unit allows for a quick installation and less room downtime. The mobile unit offers various accessories, including a shelf, basket, and retractable power cord, providing flexibility and organization of supplies when moving room to room.

Sterilizable, centrally controlled handle

For ease of use, all of the light's features are controlled from a central handle, which can be removed and sterilized for use in minor surgical procedures.
